

Weapons description

Weapons will have three classifications that effect how they are used.

The first is the weapon type that determines what ability and damage type it has.

The second is the classification which determines the damage and rolling process

Lastly is the size, which determines how fast the weapon can be taken out and if it can be dual wielded

Weapon types

Gun weapons

All power, smart and tech weapons deal piercing damage unless said otherwise

Power weapons

Power weapons scale on strength and have the ability to ricochet.

When you roll for attack and miss, roll again without advantage unless stated otherwise and half the damage dealt.

You can also intentionally ricochet to go around walls

Smart weapon

Bullets can lock on and curve towards the opponent within moderation.

Smart weapons require concentration, in order to hold a smart lock on the user must point the weapon towards the enemy.

If the user has smart weapon interface and has fired at the same enemy for x number of lock on turns, the users attacks are guaranteed to hit an enemy provided they can still be seen and have concentration.

When your lock on ends, you can't lock on for 2 turns

Tech weapons

Can be charged to release a powerful wall piercing shot.

Each tech weapon charge shot takes a bonus action to charge and an action to fire, unless stated otherwise.

When charged, the shot consumes x2 the ammo of a normal shot but pierces walls and deals extra damage equal to weapon tier x2.

Bladed weapons

Deal slashing damage unless stated otherwise

Blunt weapons

Deal bludgeoning damage unless stated otherwise

Throwing weapons

Deal piercing damage unless stated otherwise

Weapons sizes

Small

Can be unsheathed as a reaction and dual wielded, generally lower damage in exchange for fast use stealthy weapons

Increase movement speed by 10

Medium

Can be unsheathed with a bonus action and deals moderate damage but can't be dual wielded.

Heavy

Can be unsheathed with an action and deals large amounts of damage in exchange for its slower fire rates and difficulty of use.

If you have an ability to attack on a bonus action, it does not work with heavy weapons.

Slows movement speed by 25

Reloading

Melee weapons

Melee weapons don't need to reload unless stated otherwise

Light weapons

Light weapons take a reaction to reload, but if you reload within 5ft of an enemy it invites a. opportunity attack.

Medium weapons

Takes a bonus action to reload.

Heavy weapons

Takes an action to reload, or can take a bonus action to reload if you sacrifice all movement for that turn. Also invites an opportunity attack if an enemy is within 5ft of you.

Weapon classification

Pistol

Short small and takes an action to fire two shots per attack

Can be used with one hand and unsheathed as a reaction

Both dealing 1d4 so pistols deal 2d4 damage but scales on dex

Tamayura

Small power pistol

8 rounds per reload

60ft effective range

Kryx -3000

Small tech pistol

16 rounds

60ft effective range (boosts to 100ft when charged)

Stencil

Small smart pistol

12 rounds

60ft effective range (30ft lock on range)

2 turns to lock on

4 turn lock on duration

Malorian arms 3516 - tier 5 icon

Medium power pistol

Deals 2d6 damage

10 rounds

80ft effective range

Gun mod - as a quick melee, use all the remaining ammo to perform a quick melee where you deal 3d8 fire damage.

Performed with a bonus action

Revolvers

Short small and takes an action to fire one shot

Can be used with one hand and unsheathed as a reaction

That shot dealing 1d8 but scales on Wis or dex

Quasar

Small power revolver
6 rounds per reload
80ft effective range
Prone to crippling enemies but also prone to jamming

Burya

Small tech revolver
4 rounds
60ft effective range (125ft when charged)
One weapon mod slot

Coursair - tier 5 iconic weapon

Small smart revolver
4 rounds
100ft effective range

Gun mod - the last shot of this revolver is guaranteed to hit if it's against a scanned enemy.

Gun mod - the last shot of this revolver restores 5 ram.

The answer - tier 5 iconic weapon

Medium tech revolver
1 round
Infinite range

Sub machine guns

Small automatic weaponry that fires four shots per action

Can be used with one hand and unsheathed as a reaction

Roll to hit, if you hit roll 1d4 d4s for damage

Senkoh

Small tech submachine gun
35 rounds
60ft effective range

Shigure

Small power submachine gun
20 rounds
70ft effective range

Shingen

Small smart submachine gun
28 rounds
50ft effective range (25ft lock on distance)

3 turns to lock on
5 turn duration

Chesapeake - tier 5 icon weapon

Medium smart submachine gun
40 rounds
50ft effective range (25ft lock in range)
2 turn lock on
3 turn duration

Icon mod - hitting a target on your turn increases speed by 10ft and fires an additional bullet on the next shot, meaning +1 d4s

Shotguns

Medium to small sized weaponry that fires one shot per action

Every shotgun has a range, if you fight outside of that range there's reduced damage.

Shotgun damages depends on the size

Small shotguns - deals 1d6 while not within range, deals 2d6 while in range

Medium shot gun - deals 2d6 while not in range, deals 3d6 while in range

Carnage

Heavy power shotgun
Deals 2d8 while not in range and 3d8 when in range
4 rounds
50 foot max range (15ft high damage range)
Prone enemies on crit

Satara

Small tech shotgun
Deals 1d6 not in range, deals 2d6 when in range
2 rounds
30ft max range (10ft high damage range)
Range increased to 30ft effective range when charged
Can be dual welded

Sidewinder

Small smart shotgun
Deals 1d6 not in range, deals 2d6 in range
2 rounds
30ft max range(20ft lock on range, 10ft high dmg range)
Lock on time: 1 turn

Lock on duration: 1 turn

Meaning first shot comes with no lock on, second one does.

Order - tier 5 icon weapon

Medium tech shotgun

2 rounds

Deals 2d6 while not in range and 3d6 when in range

25ft effective range (5ft high damage range)

Half charge (taking a bonus action) increases range to 40ft effective and 10ft high damage

Full charge (taking an action) increases range to 50ft and 20ft high damage

Weapon mod - when at full charge, the weapon deals lightning damage and x4 weapon tier extra damage. If this attack deals half of an enemies total health and they are in high damage range they are instantly vaporized.

Weapon mod - All full charge shots leave an EMP behind, preventing the use of quickhacks in that line for a turn.

Assault rifles

Medium automatic weapons that fire 6 shots per action

Or switch to one shot for more precise shots

They have longer range than most weapons and bigger mags

Assault rifles deal 1d6 d4 damage when firing with spray

Single fire deals 2d6 damage and has greater range

Nowaki

Medium power AR

24 rounds

80ft effective range (100ft on single fire)

Ding ding

Medium smart AR

30 rounds

80ft effective range (50ft lock on range)

Lock on time: 2 turns

Lock on duration: 2 turns

Weapon mod - does not offer instant hit, instead deal max number of d4s on hit

Precision rifles

Medium weaponry that has long range and fires one shot per action

Deals 2d8 per shot but has lower ammo counts

M-1 Achilles

Medium tech precision rifle

9 rounds

100ft effective range (150ft when charged)

Midnight Sor

Medium power precision rifle

10 rounds

120ft effective range

Widow maker - tier 5 icon weapon mod

Heavy tech precision rifle

8 rounds

Deals 2d10 poison damage instead of d8

100ft effective range (125ft when charged)

Icon mod - When charged applies poison effect on a crit and if the enemy is already poisoned deal double damage.

Machine guns

Heavy weaponry that fires many bullets with high magazine numbers

Heavy machine guns deal area damage on attack and thus are better against swarms of enemies.

Heavy machine gun fires 1d10 d4s and the amount of d4s increases by +1 for each enemy within a 25ft cone in front of the user to a max of 10 d4s.

Max HB 4

Heavy power machine gun

70 rounds

70ft effective range

Fires explosive rounds, dealing half fire damage and increased dismemberment chance by 1

Primer

Heavy tech machine gun

100 rounds

70ft effective range

By using all ammo, fire an explosive round that deals 6d8 aoe damage in a 10ft circle.

Militech mk 11

Heavy heavy heavy power machine gun

For context this is the big fuck gun Adam smasher is holding in edgerunners and is the equivalent to a turret. You would mainly get them from enemies or by using strength to rip them out of turrets.

This gun cannot be holstered, you cannot dash action, air dash or movement skill while holding it.

The gun overheats after firing too much for too many turns, anyway here's the busted stats to make up for it. You can avoid the overheat by passing a con check or str check.

300 rounds

Effective range of 100ft

Deals half its damage as explosive damage

This weapon fires 2d8 d4s instead and any enemy within 25ft is guaranteed to be hit with +2 to damage for being close.

Wielding this weapon costs many str checks

Sniper rifle

Heavy weapon that fires one shot per action.

High damage with low ammo amounts

Deals 2d12 damage, can be loaded with special bullets for more effects or damage.

grad SPF

Heavy sniper rifle

4 rounds

150ft effective range

Rounds bounce off walls tactically, your ricochets deal an extra +2 damage

Ashura

Medium smart sniper rifle

1 round

120ft effective range (80ft lock on range)

Sniper locks on after an action of aiming without shooting.

Nekomata

Heavy tech sniper rifle

4 rounds

150ft effective range (200ft when charged)

Borzoya - tier 5 icon weapon

Heavy power sniper rifle

4 rounds

150ft effective range

Icon mod - inflicts a burning effect that deals 1d4 per turn on hit and a failed con save

Weapon mod - attacking a burned enemy gives you: -2 on attack rolls and lets your crit on 19, if you already crit on 19 then 18 etc

Throwing weapons

Light or medium weapons that can be thrown, scaling off your Wis mod.

Whenever you get a throwing weapon, you get copies of that weapon up to half the weapons tier, they are expended when thrown unless you pick it back up.

All throwing weapons deal 1d6 damage, but deal 2d6 damage when the enemy doesn't see you.

Throwing weapons are also melee weapons that deal 1d6

Chef knife

Medium throwing weapon

Deals d8s instead of d6

40ft effective range

Neurotoxin knife

Light throwing weapon

50ft effective range

Weapon mod - hitting a headshot(over 15 natural) poisons the enemy, hitting a crit gives the enemy a weakness to poison and poisons them.

Stinger - tier 4 icon weapon

Light throwing weapon

60ft effective range

Weapon mod - attacking a poisoned enemy gives them bleeding but halves poison duration and attacking a bleeding enemy gives them poison but halves bleeding duration.

Fang and claw - tier 5 icon weapon

Medium throwing weapon

50ft effective range

Deals d8 instead of d6

Weapon mod - hitting an enemy with a thrown hit reduces their movement speed to 0 for a turn, hitting them in melee during this deals an extra +3 to damage and to hit.
